

STUDENT PLACEMENTS WITH MORAY ACTIVE SCHOOLS

**Are you studying a sport /
health & fitness /
childcare related course?:**

Using Active Schools to complete your placement offers the chance to gain work experience and develop various key skills, many of which are transferable across varying professions.

We work around you:

Your local Active Schools Coordinator will work to meet your needs and offer to support you throughout your placement.

Additional opportunities:

Students who volunteer with Active Schools often continue to get involved with our programme, which can lead to further coach education or employment opportunities.

You don't need to be sporty:

Do you have an interest in photography? Event management? Something else? Speak to us, we could meet your needs!
